

DLH Series Cone Mixer

Introduce:

Main Application :

As a new type high efficiency and high precision mixing equipment, this machine is widely used for mixing of powdery or paste materials in pharmaceutical, chemical and feed trades etc.

Working principle :

The machine consists of single screw and type S blade. It is featured with large agitating scope, high mixing speed, no dead angle. It is more suitable for mixing of materials with a great disparity in specific weight and mixing proportion.

SUS 316 L

Mirror Polish

Meet cGMP Standard

Technical Parameters :

Model	Production Capacity(L/times)	Total volume (m3)	Loading coefficient	Loose density	Material size (mesh)	Motor power (kw)	Mixing time (min)	Overall dimension	Weight (kg)
DLH200	100	0.2	0.6	-0.8	20-350	3	6-10	φ 1180×1930	600
DLH500	250	0.5	0.6	-0.8	20-350	4	6-10	φ 1180×2290	800
DLH1000	500	1	0.6	-0.8	20-350	5.5	8-10	φ 1500×2700	1200
DLH2000	1000	2	0.6	-0.8	20-350	11	8-10	φ 1900×3500	1800
DLH4000	2000	4	0.6	-0.8	20-350	18.5	8-10	φ 2200×4050	2600
DLH5000	2500	5	0.6	-0.8	20-350	22	10-15	φ 2418×4566	3000
DLH6000	3000	6	0.6	-0.8	20-350	30	10-15	φ 2850×4780	3500
