

# V SERIES MIXER

SUS 316 L

Mirror Polish

Meet cGMP Standard

## Introduce:

## Main Application :

This machine is used for mixing of dry granulate material in pharmaceutical, food-stuff, chemical and other industries.

## Working principle :

Featuring unique structure, high mixing efficiency and without dead angle, the mixing barrel is made of stainless steel with polished internal and external walls. And this machine has beautiful appearance, uniform mixing and wide application.

## Technical Parameters :

Model	CH-6000V	CH-4000V	CH-2500V	CH-1500V	CH-1000V	CH-500V	CH-300V
Production capacity(L/times)	2500	1800	1200	680	400	200	100
Model of auxiliary vacuum pump	W4	W4	W3	W3	W3	W2	W2
Feeding time	10-15	10-15	8-12	6-10	6-9	4-6	4-6
Mixing time(min)	10-20	10-20	10-20	10-20	10-20	10-20	10-20
Total volume(cbm)	6.0	4.0	2.5	1.5	1.0	0.5	0.3
Barrel speed(r/min)	5	6	8	10	10	12	12
Motor Power(KW)	18.5	15	11	5.5	4	2.2	1.1
Gyration height(mm)	4380	4200	3790	3100	3000	2450	1850
Overall dimention	5500× 1300×4380	4600× 1300×3500	3820× 1100×3200	3400× 1100×3100	2850× 1050×2050	2500× 800×2050	1900× 650×1850
Weight (kg)	3200	2800	2040	1020	950	550	320
